SYBASE®

PRODUCT SPECIFIC LICENSE TERMS
Sybase® Data Auditing v4.x
("Program")

IN ADDITION TO THE LICENSE TERMS SET OUT IN THE SYBASE LICENSE AGREEMENT, THE FOLLOWING ADDITIONAL OR DIFFERENT RIGHTS AND ACCOMPANYING OBLIGATIONS AND RESTRICTIONS SHALL APPLY TO THE PROGRAM:

The Program may contain or be provided with component software products from both Sybase and third parties. Except as set forth below, use of all components is limited to use in the same manner and capacity for which the Program as a whole is licensed. Additional licenses for Sybase components may be available from Sybase for a fee.

I. Program Pricing. The license fees owed by you for the Program shall be determined by calculating (i) the number of Machines on which the Program is licensed to run, and (ii) the number of CPUs designated for use on each licensed Machine, as specified on the Purchase Order or Exhibit A. The total number of Machines shall be determined by identifying the number of distinct machines on which the Program is intended to operate. License fees for the Machines are separated into tiers, each of which allows for use of the Program on a specified number of CPUs for each licensed Machine. You may not use the Program in excess of the licensed Machine or CPU capacity without first paying additional license fees therefor. Your license for the Program also includes one Program base system ("Base System"). The Base System components include: one (1) copy of the Management Console, one (1) copy of the Repository, and one (1) copy of the Report Server (includes one copy of Crystal Report Writer which may be used by five (5) users). You may not use more than one (1) copy of the Base System without first paying additional license fees therefor.

II. Restricted Use Components. The Program may contain or be provided with the Restricted Use Components identified below (depending on the platform). If included, you are licensed without further charge to Use only one (1) copy of each Restricted Use Component on one (1) Machine. You may Use the Restricted Use Components solely in conjunction with your use of the Program, and subject to any Additional Restrictions set forth below.

Restricted Use Components	Additional Restrictions
Software Developer's Kit v.12.5.1	May only be used to enable the Program to operate with the Sybase Adaptive Server Enterprise products.
Open Server v.12.5.1	May only be used to enable the Program to operate with the Sybase Adaptive Server Enterprise products.

III. Free Download Components. The Program, including any Developer Components and Restricted Use Components provided with it, may include certain third party open source and other free download components ("Free Download Components"). You may have additional rights in the Free Download Components that are provided by the third party licensors of those components. The Free Download Components and any such third party licenses and third party-required notices for the Program are identified at http://www.sybase.com/thirdpartylegal (third party licenses and notices for Free Download Components included as part of the Developer Components and Restricted Use Components are identified under the names of those products). Any obligations undertaken by Sybase in the Agreement relating to the Free Download Components as part of the Program are provided by Sybase alone, and not by the third party licensors of the Free Download Components. **A. FURTHER DISCLAIMER OF WARRANTIES AND LIABILITIES.** The Free Download Components are provided "AS IS" by the third party licensors, who disclaim all liabilities, damages (even if they have been advised of the possibility of such damages), warranties, indemnities and other obligations of any kind, express or implied, with regard to the Free Download Components. Nothing in the foregoing affects any performance warranty provided by Sybase with regard to the Program as a whole. **B. DISCLAIMER OF INDEMNITIES.** The Free Download Components are excluded from any indemnity provided by Sybase or its subsidiaries in the Agreement.
